

P2I – Reporting Dates for Yr 7 and 8

Subjects following the P2I scheme below include Art and Design, English, Geography, History, ICT, RS, Science and Technology. English and Science set six P2I tasks over the year and all other subjects set three P2I tasks. Each student will receive a mark out of nine, a corresponding award of Gold, Silver or Bronze and a target based on the marking criteria they are yet to meet.

Please use the table below to find information on when each report will be ready to view on SLG and which P2I results will appear on each report. The majority of reports have been scheduled for release a few days before a holiday to allow for any issues to be reported.

On the second P2I report of each term and onwards, you will notice that the list of marks and awards grows as more P2I tasks are completed. With each new term, the previous term's awards are kept on the report, but only new P2I results will show a mark, grade and target. This is to allow parents and carers to be able to compare P2I results, not only to see if progress is being made within one subject, but also between the subjects.

A message will appear on the website at the start of each reporting week to remind you of the release date of each P2I report so that you can view it on SLG, plus we shall send out a text message/email reminder to those who have supplied their details to the College.

I hope that this information adequately explains our new system of reporting P2I marks but please feel free to contact me if you have any queries or comments using my email address Melanie.Tanner@horndeantc.hants.sch.uk or by telephone 02392 594325 ext 246.
